

## Two Students from Turkey Completed the Master's Course in Architecture

**Date : August 4 (Friday), 2017**

Mukogawa Women's University's graduate school graduation ceremony (for students entering in September) was held in the Global Studio on the second floor of the Central Library, where two international students from Turkey officially completed their master's course in the Department of Architecture. Around 100 MWU students, faculty, and staff members were in attendance.

The ceremony began with the conferment of the two students' degrees by MWU president Naosuke ITOIGAWA. President ITOIGAWA then delivered a speech. Shigeyuki OKAZAKI, Chairman of the Department of Architecture, also delivered a speech. At the end of the ceremony, each graduating student spoke a few words of thanks in fluent Japanese.

Both students will remain in Japan after their graduation, with one entering a leading architectural design firm in Tokyo and the other advancing to the doctoral course here at MWU. We look forward to great things from these graduates with the valuable ability to build bridges between Japan and Turkey.
